***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: The examiner agrees with the Applicant's response filed on 5/6/05, that none of the references cited or the art searched disclose or teach alone or in combination the method or formal verification of a system design considering the under-defined state in conjunction with the successive verification checks in conjunction with the other elements of the claims. The Applicant's arguments specifically address the successive verifications, evaluations of the system state, and final decisions for all of the claims, and clearly demonstrate that Hardin does not teach these limitations. A further search by the examiner has not resulted in references, which teach the Applicant's limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
